+91 84388 87503 | gdsarath2005@gmail.com | linkedin.com/in/gd-sarath | portfolio-nine-nu-83.vercel.app | github.com/gdsarath

PROFILE SUMMARY

M.Com Finance graduate (CGPA 78.8%) with hands-on experience in financial reconciliation, accounts payable/receivable, GST compliance, and financial reporting gained through internships and academic projects. Working knowledge of capital markets instruments — equities, bonds, derivatives, and mutual funds — supported by IFRS/GAAP coursework and industry certifications (CFI, NISM, Great Learning Financial Risk Analysis). Proficient in Tally Prime, Advanced Excel (VLOOKUP, SUMIF, Pivot Tables, Conditional Formatting), and financial statement analysis. Skilled at identifying discrepancies, maintaining audit-ready documentation, and delivering accurate reports within defined timelines. Brings a strong blend of accounting fundamentals, analytical ability, and data-driven thinking to finance and accounts roles.

CORE COMPETENCIES

- Financial Reconciliation (Ledger, Bank, Invoice)
- Accounts Payable & Receivable (AP/AR)
- GST Registration, GSTR-1 Filing & Compliance
- Financial Statement Analysis (P&L, BS, CF)
- Capital Markets — Equities, Bonds, Derivatives
- GAAP & IFRS Accounting Standards
- Ratio & Variance Analysis
- Tally Prime (AP/AR, GST, Ledger)
- Advanced Excel — VLOOKUP, SUMIF, Pivot Tables, IF
- Power BI — KPI Dashboards, Visual Reporting
- MS Office — Word, PowerPoint, Outlook

INTERNSHIP EXPERIENCE

Accounts Trainee · HMPS Associates | Salem

May 2023 – June 2023

- Performed monthly ledger reconciliations across 10+ client accounts, identifying and resolving all discrepancies with zero outstanding breaks and complete audit trail.
- Managed end-to-end GST registration and GSTR-1 filing for 10+ clients — achieved 100% on-time submission with zero compliance errors throughout the period.
- Verified invoices against purchase orders and delivery records; resolved billing discrepancies and maintained audit-ready documentation.
- Prepared P&L and balance sheet summaries, applying liquidity and profitability ratio analysis to support client financial reviews.
- Maintained multi-client ledgers with high accuracy, supporting month-end close and reporting timelines.

Finance Intern · SV Furniture | Salem

May 2025 – June 2025

- Recorded and verified 100% of daily financial transactions, supporting accurate month-end close and internal reporting.
- Tracked inventory valuations and operational costs daily, identifying and flagging discrepancies in real time for corrective action.
- Organised financial documentation and ensured all records were complete and accessible for audit purposes — zero missing records across the internship.
- Assisted in preparing financial summaries and cost reports for management review.

- Cleaned and structured financial datasets to identify trends, anomalies, and reporting gaps — same analytical approach applied in reconciliation and exception handling.
- Built KPI dashboards and financial reporting summaries to deliver management-ready insights on schedule.
- Extracted and aggregated data for financial reporting use cases, ensuring data integrity throughout the pipeline.

PROJECTS & PORTFOLIO

Expense Tracker · Microsoft Excel — Advanced Formulas, Pivot Tables 2024

- Built a comprehensive daily income and expense tracking system using VLOOKUP, SUMIF, IF, and Pivot Tables to automate categorisation, flag anomalies, and generate structured financial summaries — directly mirroring AP/AR and daily reporting workflows.

Intra & Inter Firm Financial Analysis · Excel · Financial Statement Analysis 2024–2025

- Conducted detailed performance analysis within a single organisation (Intra) and benchmarked against industry peers (Inter); computed 10+ financial ratios (ROE, current ratio, D/E, EBITDA margins) with reconciliation-grade accuracy.
- Identified variance drivers, trend patterns, and anomalies — applying the investigative mindset required for exception resolution in reconciliation roles.

Trend Analysis — Crompton Pvt Ltd · Excel · Real Financial Data (2016–2025) 2024–2025

- Analysed Crompton Greaves Consumer Electricals' 10-year financial performance using real public data; uncovered growth patterns, cost structure shifts, and profitability trend inflection points with structured ratio analysis.

JPM Equity Hub · Power BI · DAX · Capital Markets Data 2024–2025

- Developed an interactive Power BI suite analysing 45 years of JPMorgan Chase market data using advanced DAX measures; includes a 'Deep Dive' module on Algorithmic Trust for evaluating automated trading model performance — demonstrating applied capital markets and investment data analysis.

India Retail Tech Sales Dashboard · Power BI · Power Query · Multi-Year Transaction Data 2024–2025

- Built a commercial operations dashboard tracking ₹55.7Cr+ in electronic product revenue across Indian states; engineered Power Query pipelines to process multi-year data, enabling seasonal trend, state-level market share, and pricing distribution deep-dives.

Netflix Content Library Analysis · Power BI · Data Visualisation 2024

- Designed an end-to-end Power BI dashboard analysing Netflix's global content library (1959–2021); dynamic visualisations of rating trends, genre popularity, and geographical content distribution.

Finance-Focused Web Application (QFIN PAY) · AI · Finance Automation · GitHub Pages 2025

- Built an AI-powered digital wallet web application featuring real FD/investment rate data and a transparent AI fraud detection engine — demonstrating applied FinTech and financial data automation capability.
